MAX-C
Wet Location LED Exit & Emergency Combo

DATE:

PROJECT

COMMENTS:

FEATURES

- IP66 rating makes this suitable for wet location applications.
- Certified NSF Standard 2 — meets the rigorous sanitation, electrical safety, and performance requirements of food service environments.
- Intertek verified splash zone listed to ensure no damage is done in an environment where it may get splashed with liquids.
- Designed to stand up to abuse in applications for schools, institutions, public areas, apartments, and security/prison applications where vandalism may occur.
- Stencil is protected by 0.125" impact-resistant polycarbonate shield.
- Sealed external momentary test switch and dual diagnostic LED indicator displays AC presence and Hi-Charge status.
- Maintenance-free, sealed nickel cadmium batteries provide a minimum of 90 minute emergency run-time with short circuit protection.
- Line-latch prevents unnecessary discharge of battery during installation. Loads will not illuminate until after application of utility power.
- Brownout detection ensures emergency operation during periods of low line voltage.
- 120/277 VAC with field selectable inputs.
- Exit sign is compatible with remote lamp heads.

SANITATION LISTED
ETL Intertek 9901281 Conforms to ANSIF / NSF STD NO. 2
