PROJECT

COMMENTS:

FEATURES

- Three capacity options: 16W, 32W, and 64W main body ratings.
- Three lamp head wattage options: 4W, 8W, and 16W.
- Supports 0 heads (for remote use), 2 heads mounted on top, or 4 heads mounted on top and bottom.
- Lamp heads feature adjustable optics for focused, long-narrow beams or wide coverage for large spaces like warehouses.
- A set screw at the bottom secures the unit to the plate for both wall and ceiling installations.
- A surface/utility mounting plate allows for direct conduit entry, surface mounting, pole mounting, Unistrut mounting, and other standard mounting configurations.
- NEMA 4X rated for protection against water and harsh conditions.
- Operates in environments down to -30°C; standard operating range is 10°C to 40°C.
- Self-diagnostics are standard on all units but can be disabled if desired.
- Standard IR remote receiver on all units for convenient testing.
- Software-selectable and field-adjustable time delay feature is available on all units.
- Any capacity not used for local lamps is available for remote lamp heads up to the unit's rating.
- Remote lamps are available with 1 or 2 lamp heads (see OLLOR specification sheet)
- Combines performance with a modern, streamlined look.
